- University Of North Bengal
BSC with Computer Science
Completed in 2022
- Banimandir RLY H.S. School
Science
Completed in 2018

About Me

Aspiring software developer with a passion for problem-solving and innovation. Self-motivated learner, adept at coding in various languages and eager to contribute to real-world projects. Seeking opportunities to collaborate, grow, and apply emerging technologies to create impactful software solutions.

Personal Projects

ECommerce Website: Seamless Shopping with Secure Payments

The project entails crafting a sophisticated ecommerce platform equipped with robust payment processing capabilities. Core functionalities encompass user registration, an extensive product catalog, a streamlined shopping cart, diverse payment methods, an adept admin panel, comprehensive inventory management, and stringent security protocols. Cutting-edge technologies such as HTML, CSS, JavaScript, React, Node.js on Django, and established payment options like UPI/Net Banking will be harnessed to bring this endeavor to fruition.

Chrome Extension - ColorPicker Tool

Develop a Chrome extension, the ColorPicker Tool, to enable users to easily select and identify colors on web pages. Features include color code formats, history, and color organization. Utilizes JavaScript, HTML, and CSS, integrating with Chrome Extension APIs. Enhances the efficiency of web designers, developers, and digital artists.

Real-Time Weather App

Created a weather app project that integrates external APIs to provide real-time weather data for user-specified locations. Demonstrated API integration, data visualization, and user interface design skills.

Achievements

2022	CUET-PG 2022 AIR 5(category)
2023	Certified in NPTEL Joy of computing with Python Top 5% .

Hobbies
